Teamwork and Communication	<p>I am an enthusiastic and spirited worker, who enjoys collaborating, working with and learning from others. As a co-founder of 'Touch of Techno' - A group of local DJ's working in a variety of events – I have learned a lot about what it takes to work as a team to achieve your goals. The position requires intense coordination and organisation to put together set lists, deciding on event locations, promoting the events and sorting all equipment. I also worked with large teams in places abroad such as San Francisco, which allowed me to learn the values of team work from another perspective.</p>
-----------------------------------	--

Personal Interests	<p>I have been producing music since the age of 14. I play the drums competently from the age of 13. Music is my number one passion and through DJing, has brought me to so many locations such as France, Manchester and the United States. I hope to continue this work as has now become part of who I am. I am also an avid Man United fan and play soccer myself to keep fit.</p>
